

A collection of modern, colorful armchairs is arranged in a bright room with a large, multi-paned window in the background. The chairs are in various colors including red, pink, blue, purple, yellow, and brown. The room has a tiled floor and a white wall. The text 'About A Collection' is overlaid in large white letters, and 'Design by Hee Welling & HAY' is written below it in smaller white letters. The HAY logo is in the bottom right corner.

The About A Collection

The About A Collection is HAY's most versatile furniture series. It began with a chair and blossomed into a collection of virtually unlimited potential, demonstrating that a single strong idea can contain a wealth of development options. Today, the About A Collection includes four complete series: About A Chair, About A Stool, About A Table, and About A Lounge. Together, these series comprise dining and conference chairs, office chairs, bar stools, lounge chairs, tables, a foot stool, and a sofa, all of which are equally suitable for private, professional, or public settings.

Most notably, the About A Collection is a true pragmatist, able to blend in or stand out, depending on the task it is assigned. Dramatize its silhouette with heavier upholstery, or opt for more subtle materials and colours. The many options available for customization allow you to tweak the design without compromising the basic concept, resulting in a vast range of furniture that is both flexible and unique, while celebrating individuality.

Design by Hee Welling & HAY

Danish designer Hee Welling founded his own studio in Copenhagen in 2003. Welling has received a number of design awards, including the Bo Bedre Award (Denmark) and the Good Design Award (USA), and he was nominated as the Danish designer of the year in both 2013 and 2014.

Welling is the son of a cabinetmaker, and his fascination with production techniques, materials and machinery began when he was a child. He went on to study at The University of Art and Design in Helsinki, and received his master's degree in furniture design from The Royal Danish Academy of Fine Arts (where he is also now a design tutor). His design ethos is centered around the idea of creating technically accomplished products that can reach a wide audience. His work is characterised by a sense of quiet elegance and proportion. For HAY, Welling has designed the entire About A series as well as the Hee Chair the Hee chair collection.

Working Together

“The idea with About A was to achieve a simple balance between form, function, comfort, details and aesthetics.”

— Rolf Hay

“The About A Collection began when Rolf called me and said, ‘I want to do a project that celebrates everything that’s wonderful about a chair.’ That is how we settled on the name, too, which is really important: the collection tells the story of the chair, it embodies chair-ness, if you could say that.”

— Hee Welling

“All the items in the About A Collection are incredibly versatile, and can really be used by anyone in any context for any purpose. These products work just as well around the dining table as around a conference table, in a canteen, or at the office.”

— Rolf Hay

Work-life

“In the contemporary world, the divide between working and living is not so strict as it once was. As we look to the future of design, we should consider that a balanced lifestyle sometimes means living where we work, and working where we live.”

— Rolf Hay

Home-life

“The About A Collection is meant to be a collection of chairs, lounges, stools, and more that have all the most basic yet essential elements of what they are. It is easy to live with these products because they are so wonderfully simple: every single part is necessary, there is no part that can be removed. It is a pure thing.”

Lounge

The About A Lounge series is made to help us unwind, whether in the office, in a hotel lobby, or in our own living room. Comprising the About A Lounge Chair, About A Lounge Sofa, and the About A Lounge Ottoman, the AAL series is in line with the rest of the collection, comprising inviting furniture whose sculpted design has been kept simple, with nothing left to chance.

The About A Lounge Chair has a generous seat and sleek, compact body, which are complemented by moulded armrests and wooden legs. It is available in a low-backed version with a more intimate expression with or without soft quilted upholstery, or a high-backed version with an open, spacious composition. The About a Lounge Sofa is a cohesive fusion of two lounge chairs. With its curvy lines and organic expression, it invites close, intimate meetings at the same time as it offers an open and welcoming structure. The About A Lounge Ottoman is designed as a companion for AAL, but the footstool has such a strong visual expression that it can easily stand alone as an extra seat.

As with all furniture in the About A Collection, the AAL series features a wide choice of cushions, legs and upholsteries that enables you to configure unique combinations that fit a variety of public and private contexts.

About A Collection In The Contract Market

HAY has always worked closely with the contract market, supplying affordable, durable, highly functional products to clients across the public sector, from universities to hospitals, offices, cafes and hotels. Distinguished by its versatility, the About A Collection is a multi-functional family of dining and conference chairs, office chairs, bar stools, lounge chairs, tables, an ottoman and a sofa, that are ideal for contract.

The collection includes a vast range of shell colours and shapes, finishes, bases, and upholstery options in a large selection of fabrics and leathers, so clients can customize every product to suit their specific desires and needs. All pieces have strong, independent silhouettes, so they can stand alone or be combined in innumerable arrangements.

A Sustainable Approach

We recognize that our actions have an environmental impact, and we take our responsibility to contribute to a greener future seriously. With all of our products, we focus on finding the balance between creating a healthy working environment, striving toward social responsibility, and pursuing environmentally friendly production methods. Above all, we strive to ensure sustainability in every step of our furniture-production processes and are dedicated to complying with legal and social demands, ethical standards, and international norms.

The About A Collection, which is distinguished first and foremost by its modular nature, embodies this ethos. Its versatility is reflected in the production process. Because of the collection's interchangeable parts and easy-to-assemble-and-disassemble profile, we are able to mix and match frames, shells, and bases to produce almost limitless combinations. This enables us to streamline the supply chain and create a more efficient and less wasteful production setup, using fewer molds and fewer parts by recycling them again and again.

About A Eco Collection

A new eco-friendly addition to the About A family, designed by Hee Welling & HAY, the About A Eco Collection emphasizes sustainability while retaining the fundamental aesthetic and versatility of the About A series. About A Eco is certified with the EU Ecolabel, which signifies that 30% of the PP material used is recycled waste material from our own About A production lines, while the wooden base is available in solid FSC-certified oak with a water-based lacquer. Every product in the About A Eco Collection can be fully disassembled and recycled.

With removeable inserts,
the shell is 100% recyclable.

“The development of the About A Collection was driven by a passion for design, but also a passion and a curiosity about how things could be produced in new and more efficient ways.” — Rolf Hay

Left to right: The transformation of a plastic shell to an upholstered one with all requisite parts and elements, including piping, foam pads, and textile.

Unlike most swivel bases, the About A swivel base is designed for 100% disassembly, which allows it to be flat-packed in shipment to the manufacturer. This contributes to a more sustainable production system.
