NEW PERSPECTIVES ON SCANDINAVIAN DESIGN

Muuto is rooted in the Scandinavian design tradition characterized by enduring aesthetics, functionality, craftsmanship and an honest expression.

By expanding this heritage with forward-looking materials, techniques and bold creative thinking, our ambition is to deliver new perspectives on Scandinavian design.

In fact our name, Muuto, comes from muutos, meaning new perspective in Finnish. We handpick leading contemporary designers who are strong interpreters of our philosophy and combine their talents with the passionate Muuto creative team.

Working across table lamps, floor lamps, pendants and wall lamps, our collection of lighting is designed with forward-thinking functionalities at its heart, allowing you to adjust each design to the unique atmosphere of any space, paired with a timelessly modern sentiment that'll shine through, even when not in use.

These are our new perspectives on modern lighting.
