STUDIO HENK

Furniture for everyday life

We are Studio HENK, a Dutch furniture design studio.
Inspired by daily moments we design furniture for everyday life.

PHILOSOPHY

We believe that furniture design isn't just about creating a beautiful piece; it's about designing furniture for everyday use. Therefore, we make furniture pieces that are both aesthetic and functional. All pieces from our collection can be customised. That way, you can create a piece of furniture that is exactly what you need to enjoy your day-to-day life.

THE DESIGN PROCESS

Our mission is to create well-made furniture that will last a lifetime. To ensure the durability, we only work with high-quality materials. We place great value on the craftsmanship with which furniture pieces were made in the past. Our aim is to bring this craftsmanship into aesthetic, contemporary designs. We're searching for the right balance between concept, aesthetics and makeability.

Though our designs appear simple, the subtle details reflect the craftsmanship with which the furniture is made.

As creative director Xander says: "There's beauty in how a piece of furniture is made. Rather than hiding the process, we highlight it." With a small team of designers Studio HENK designs all furniture in-house.

COLLECTION

Our collection consists of all the types of furniture you need for your living and dining space, office or restaurant. From dining tables, benches and chairs to sofas, lounge chairs and modular cabinets, our furniture works well in any setting. Choose from a wide range of sizes, finishes, fabrics and colours and create your own furniture.

ABOUT STUDIO HENK

Studio HENK was founded in 2013 by two brothers from the Netherlands - designer Xander and business strategist Okke. With their different backgrounds but shared interest in well-made design they form the perfect complementary duo. Studio HENK embraces Dutch values such as openness, simplicity and functionality. The name Henk, a typical Dutch name, refers to these Dutch values. It also refers to our design philosophy; to create furniture pieces that are simple, straightforward and accessible.

LIVING

A home is built around everyday moments – each furniture piece inviting us to slow down, rest, restore, laugh, play and enjoy life at home.

On weekends, we enjoy a day with no plans, lingering around the house and taking afternoon naps on the sofa while listening to soft jazz. In the afternoon we open up a bottle of wine when friends spontaneously come over. Drinks turn into dinner, and the night slowly passes away.

But that's all right. Our home is made for those moments.

DINING

The dining table is the central gathering place of the home – a place where we can eat, share, be messy and enjoy life with family and friends.

On weekdays, we come together at the end of the day to drink a glass of wine while cooking a delicious meal and sharing conversations. For a moment, we can forget about our day and be present. It's in those moments – when we truly embrace the comfort of our living space – that the home becomes this beautiful space where we can enjoy the magic of the everyday.

LIGHTING

Home is the place where we feel most at ease. Especially during busy times, the home becomes a sacred space where we can fully rest and restore. In the evening we turn on the soft lights in the living room and instantly we feel grateful for the beautiful place we live in. Beautiful lighting adds ambiance and warmth, giving your space that inviting feeling that makes everyone feel at home.
