SPRING/SUMMER 2022

PLAYFUL PERSPECTIVES

Days are lengthening, the sun is out again, plants are growing, and trees are blossoming... suddenly, our world is filled with new vigour. Capturing the rite of spring is the foundation of our new SS22 collection. Since we're in for some new, playful perspectives in our home, we made sure this season's newcomers help you do just that, crafted in forward-looking materials and production methods. Play around and rearrange our multi-functional and comfortable designs and give your house a fresh perspective over and over again. Your home is your playground!

This season is defined by soft neutral colours combined with bouncy colour accents. Many sandy shades but also royal blue, moss green, and multi-coloured accents. Colours that bring peace and quiet in our busy lives are sparked with hints of bright colours to give your interior a spring-kissed glow. This new Zuiver SS22 collection includes a comfortable mix of soft textures and materials, such as bouclé, corduroy, wool, natural oak, and recycled plastics in poppy colours.

Our new Hunter modular sofa lets you configure the sofa of your dreams and is made by skilful European carpenters. Our new wool-blend, shaggy Zest

carpet, manufactured in Belgium, combines our love for geometric lines and playful perspectives. In our search for sustainable resources and alternative materials, we used old toys for our Victoria Recycled side table, transforming it into a poppy, terrazzo-like statement piece.

"Let's see things in a different way!" It is springtime, and we are ready to pump some life back into the party. At least in our homes. Enjoy new perspectives at home by simply rearranging your interior. Play around with our new designs to give a whole new feeling to your space. Freshen things up and give your house new momentum. It can really be as simple as that!"

WHO ARE WE?

Zuiver [adjective] means 'Pure' in Dutch. 'Zuiver' to us means clean, pure and true designs for everyone, but not just anyone. Born in 2011 and rooted in Westzaan - a little village northwest of Amsterdam, The Netherlands - we believe that creativity makes the world more comfortable. Creativity can take the world to places we never imagined, but the most important place of all will always be home. Creating a safe haven, where you can calm down and be yourself. To make your own space as comforting as can be and evoke a sense of home. With our contemporary range of furniture, lighting and accessories we bring forward-looking materials, ideas and designs into any home. Tomorrow's designs for today's interiors.

TOMORROW'S DESIGNS FOR TODAY'S INTERIORS

SUSTAINABILITY

We are not a sustainable brand. Up until now, Zuiver has taken the first steps towards sustainability. We introduced the first sustainable product designs in our collection (indicated in this catalogue with a sustainability logo). In 2019, we presented our Thirsty chair, made of 60-100 upcycled PET bottles. In 2021, we introduced a new conscious edition of our iconic Albert Kuip chair series, a bioplastic version containing 42.5% coffee residue, and the Good Plastic Desk in collaboration with The Good Plastic Company. Recently we announced The Ocean Chair, made of 100% ocean plastic, which will be available this year. Follow our website to be part of this journey.

Zuiver is part of the Zuiver Group, a family of interior brands, driven by our desire to make spot-on interior products available to everyone. As a frontrunner in the furniture design field, we feel it's our responsibility to minimise our environmental and social footprint by exploring alternative materials and production methods. 'Spot on Responsibility' is our internal strategy that was introduced in 2019 in order to transform how furniture is made and (re)used. It outlines the actions we are taking to move our business, and the design industry as a whole, towards a more innovative and responsible future. We do this because resources are limited and for us, taking action on climate change and recognising human rights are non-negotiable. Every single product we design and sell has some connection to natural resources. We are ready to make new choices in order to treat our planet with the utmost respect and to minimise our company's social and environmental footprint.

CLIMATE-FRIENDLY CATALOGUE

Sustainability also applies to this Zuiver catalogue. Zuiver Group supports the climate initiative of the printing and media industries federations (bvdv) who offer their customers environment-friendly and climate-friendly print products. The Climate Neutral label guarantees climate neutrality, which means that we have calculated the carbon emissions inevitably generated in the process chain, and compensated its emission via recognized carbon offset projects. Projects, cofounded by the WWF too, such as: wind energy in Asia, reduction of smoke emissions and reforestation in Africa and landfill gas in South America.
